-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Detailed Action

1.) The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2.) Claims 12-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 12: line 7, there is insufficient antecedent basis for “said V”; in line 10, there is insufficient antecedent basis for “said I”. In both instances, the claim language refers to features V and I that were in parenthesis, making it unclear what the status of these features are as claim limitations. To overcome this rejection, applicant could replace “said V” with said wire speed (V) and could replace “said I” with said current intensity value (I). In claim 21, there is no antecedent basis for “the shop monitoring means”, making it unclear what the scope of the claim is. The other claims are inadequate under 35USC112 in that they depend from inadequate claims.

3.) The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4.) Claims 12-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Vaidya et al. (6,051,805). The patent to Vaidya et al. (6,051,805) discloses a method and system of managing an electric arc welding shop with the features claimed, including: monitoring several torches as discussed at column 5, lines 12-15; monitoring average wire feed speed and electrical current as discussed at column 5, lines 15-35; determining productivity factors associated with duty factor or deposition rate as discussed at column 1, lines 39-55.

5.) The patents to Dodge et al. (6,795,778) and Smartt et al (6,236,017) are cited to show prior art welding shop monitoring arrangements. The patent to Wenrich et al. (3,725,637) is cited to show a prior art arc welding duty factor monitoring arrangement.

Any inquiry concerning this communication should be directed to Clifford C Shaw at telephone number 571-272-1182. The examiner can normally be reached on Monday through Friday of the first week of the pay period and on Tuesday through Friday of the second week of the pay period.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Thomas G. Dunn, can be reached at 571-272-1171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
